I haven't seen the recent one. I've watched bits of the old one though.

I always thought it was interesting that Lewis Caroll was a mathematician as well

as a writer. Although I suppose you would have needed to come from a relatively well-off background to pursue either at the time.

> *googling noises* oh shit, you're right, you probably had to pretty well-off to do either full-time.

Well thank Dog for the wonders of affordable education(especially in European countries). Do you have an education/getting educated?

You'd think Luna would have to be a very tolerant/understanding pony to venture into most ponies' dreams ^^.

Maybe that was the *real* reason behind Nightmare Moon. She actually was intolerant and decided the only way to deal with it was to give everypony nightmares, forever.

At least it's not? American McGee's Alice with ponies would be **awesome**

Maybe if it was Pinkie Pie/Pinkamena, but Big Mac?

permalink embed save parent report

[–] **nateious**   2 points 8 years ago

Sure, Pinkie would be better if we're comparing the two, but Big Mac in American McGee's Alice would be better than Big Mac in regular Alice.
